

Neil Young - Captain Kennedy

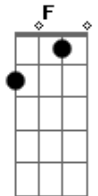

Tom: F

Dm
Dm I am a young mariner headed to war
C I'm thinkin' 'bout my family and what it was for
Dm There's water on the wood and the sails feel good
F And when I get to shore I hope that I can kill good
Dm My father was a sailor named Captain Kennedy
C He lost his wooden schooner to the Germans on the sea
Dm Exploded on the water for everyone for everyone to see

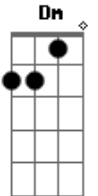

And humiliate that American Captain Kennedy

Dm I saw him in Nassau in ninteen seventy one
C His strength was failin' but he still ran a run
F He worked 'til his fingers wore to the bone
Dm To buy that wooden schooner and sail on his own
C He was known in the islands as hundred foot iron
Dm That steel hull freighter was passin' its time
 And time flew by faster with life on the sea
 And the days grew shorter for Captain Kennedy
 I am a young mariner headed to war
 I'm thinkin' 'bout my family and what it was for
 There's water on the wood and the sails feel good
 And when I get to shore I hope that I can kill good
