

# Neil Young - Devils Sidewalk

Tom: **D**

Album: Greendale  
 Tabbed by: Jesse Baer-Hennig (jesse at jesse d ot biz)

Standard Tuning dropped a whole step down (DGCFA**D**)

inbetween Riffs the chords are barre chords  
 as noted below (i'm not going to re-write them for every bar)  
 Make sure to play it grungy and wail on those riffs :)

Well the red light shines  
 On the streets of hate  
 Where the devil dines  
 Who knows what he ate

"It's a simple thing  
 Trying to stay afloat"  
 The captain said  
 Without his boat

Some things are getting better  
 Other things a little worse  
 It's a situation  
 Much like a curse

"It's the devil's sidewalk  
 It's the devil's door  
 I've tried to avoid it"  
 Said the captain of the shore

There's a garden growing  
 And a million weeds  
 With no way of knowing  
 Who's done which deed

"That's an honest tale"  
 Said the helmsman to the mate  
 "About a woman delicious  
 And a matter of fate"

Big wheel keep rollin'  
 Down on me  
 "One thing I can tell you  
 Is you got to be free"

John Lennon said that  
 And "I believe in love"  
 But I believe in action  
 When push comes to shove

"Who cares what you believe,"  
 Said the captain, amazed  
 "If you stood in my shoes  
 Your eyes would be glazed"

(another 2 riffs sorta like this last one

So, my fair damsel  
 Won't you take your leave  
 Are you headed for the country?  
 Where you wear the greensleeves

And the children laugh  
 And the old folks sing  
 And the church bell tolls  
 For a miraculous thing

Where the big red furnace  
 Just blooms and glows  
 Where the big heart beats  
 Where the big wheel rolls

the rest of this is rocking out on the **E** blues scale  
 like the rest of the song is...I'm getting lazy :)

## Acordes
