

# Neil Young - Unknown Legend

Tom: C  
 Intro: G|----->  
 She used to work in a diner  
 Never saw a woman look finer  
 I used to order just to watch her float across the floor  
 She grew up in a small town  
 Never put her roots down  
 Daddy always kept movin' so she did too  
 Somewhere on a desert highway  
 She rides a Harley-Davidson  
 Her long blond hair flyin' in the wind

She's been runnin' half her life  
 The chrome & steel she rides  
 Collidin' with the very air she breathes  
 The air she breathes  
 Intro: G  
 You know it aint easy  
 You got to hold on  
 She was an unknown legend in her time  
 Now she's dressing two kids  
 Lookin' for a magic kiss  
 She gets the far-away look in her eyes
