

Nelly Furtado - Explode

Tom: C

Am
Vera's face burnt as a memory of bedroom fun
G
With a lighter and some hairspray
Smoking in the girls' room
Am
Not worse than Shelley's rape behind the McDonald's
G
By a man she thought was fine, didn't tell anybody
Am
Or maybe back then we just thought that she was getting some
G
Now we look back and see that she didn't know how
Am
We never thought that we'd get caught up
G
Stuck in the teenage waste

As we explode **Dm Am G**

As we explode **Dm Am G**

Am
G
Then getting drunk in the bushes by the road outside the Kmart
Am
Rolling around in them to see if you would get prickled

Slip the acid on your tongue roof top mall parkade
We couldn't get enough

Am
Then count the stars and the ten million woes
G
Just you and the universe judging each other
Am
We never knew that we'd get caught up
G
Stuck in the teenage waste

As we explode **Dm Am G**

As we explode **Dm Am G**

As we explode **Dm Am G**

As we explode **Dm Am G**

As we let go

Am
It's a fight, it's a fight and you finally belong
G
Got a shiner now and it's more than a battle scar
More than a battle scar, such a good, good story to tell
Am
At lunch break, lunch break, lunch break, lunch break
Such a good, good story to tell
G
You bully, you break, you bully, you break
You fake, you fake, you fake, you fake
Am
G
You smoke, you toke, you want, you flaunt, you hit it and
you're in it and it's spinning
And it's wild
Am
We never thought that we'd get caught up
G
Stuck in the teenage waste

As we explode **Dm Am G**

As we explode **Dm Am G**

As we explode **Dm Am G**

As we explode **Dm Am G**

G As we let go
Dm
We're counting the stars
We're counting the stars
Am
We're gonna go far, we're gonna go far
Dm
We're counting the stars, we're counting the stars
Am
We're not very far, we're not very far
Dm
And it's you and me in the open air
Am
It's truth or dare, we don't care
Dm
We're counting the stars, we're counting the stars,
Am
we're counting the stars, we're counting the stars
Dm
we're counting the stars, we're counting the stars
