

Nessa Barrett - ?La Di Die

tom:
 Does it rain in California
 Only dream I've ever known
 Will they love you when you're famous
 Where you'll never be alone?
 Hope someday I'll find nirvana
 I'll be looking down below
 I'll be dead at twenty-seven
 Only nine more years to go
 I got a bully in my head
 Fake love, fake friends
 I was broken when you left
 Now you hear me everywhere you go

Does it rain in California
 Only dream I've ever known
 Will they love you when you're famous
 Where you'll never be alone?
 Hope someday I'll find nirvana
 I'll be looking down below
 I'll be dead at twenty-seven
 Only nine more years to go
 I got a bully in my head
 Fake love, fake friends
 I was broken when you left
 Now you hear me everywhere you go

La da di, oh la di da
 Gonna be a sup?rstar
 Be the girl you used to know
 Playing on th? radio
 La da di, oh la di die
 Loving me is suicide
 I'm a dreamer, I'm on fire
 La da di, run for your life

Oh-oh, oh-oh, oh-oh, ah-ah-ah-ah

Acordes

Yeah-yeah, ya jxdn, ya jxdn
 Said I'm gonna be a Rockstar, yeah yeah yeah
 Told her I don't want a war, yeah yeah yeah
 I don't see me going far, yeah yeah yeah
 That's what happens when I fall apart
 All of me wants all of you
 But I'm far away and I can't choose
 Got a lotta lessons that I need to learn
 Got a lotta lessons
 My depression and misconceptions
 And all the mistakes that lead to lessons
 My depression, it makes me question
 My depression, it makes me question

La da di, oh la di da
 Gonna be a sup?rstar
 Be the girl you used to know
 Playing on th? radio
 La da di, oh la di die
 Loving me is suicide
 I'm a dreamer, I'm on fire
 La da di, run for your life
 (Em D A2 C D)

Does it rain in California
 Where the angels cry for me
 Want the drugs that taste like candy
 And blood diamonds in my teeth (ah!)

La da di, oh la di da
 Gonna be a sup?rstar
 Be the girl you used to know
 Playing on th? radio
 La da di, oh la di die
 Loving me is suicide
 I'm a dreamer, I'm on fire
 La da di, run for your life
 Yeah, I'm gonna be a superstar
