

NeverShoutNever - Bigcitydreams

Tom: C
 You say we're both little people and you like it that way
 But in time I'm gunna put this body to shame (and grow old)
 Where a suit like my old man
 Pack up all my things and get my ass out of town

We've got it good
 Whether you like this town or not
 I know it's small but with a big head
 it's bound to get hot
 In the summer

But the summer is a bummer
 If you can't leave
 This pathetic excuse for a town

That holds all your memories
 A lifetime of crushes and your broken dreams
 To be anywhere but here
 But baby anywhere is away from me

If you got it all figured out
 Then what is there to shout about
 This midwest town is gunna miss you
 Just go ahead and work it out
 But first come on and let it out
 Scream it shout tell everybody that your gunna leave

In about one year you'll have it all figured out
 These big city dream are what you're about

Walking like stangers among these states
 Only time will tell how long I can wait

We've got it good
 Whether you like this town or not
 I know it's small but with a big head
 it's bound to get hot

In the summer
 But the summer is a bummer
 If you can't leave

This pathetic excuse for a town
 That holds all your memories
 A lifetime of crushes and your broken dreams
 To be anywhere but here
 But baby anywhere is away from me

If you got it all figured out
 Then what is there to shout about
 This midwest town is gunna miss you
 Just go ahead and work it out
 But first come on and let it out
 Scream it shout tell everybody that your gunna leave

Me again oh so casually
 Did you take the hit for me or the home team

If you got it all figured out
 Then what is there to shout about
 This midwest town is gunna miss you
