

# NeverShoutNever - Break Up Song

Tom: F

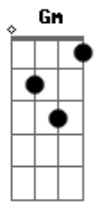

I'm just a robot  
 I have no fears  
 I lack emotion  
 And I shed no tears  
 And I'm just a coma  
 A deadly sleep  
 My heart is breakin'  
 But I just can't weep  
 So babe I want you to cry,  
 And I want you to cry for me,  
 I don't want you to lie to me,  
 And say that it will be alright,  
 And I want you to say goodbye,  
 But I want you to mean it,  
 And I want you to find a man,

Who's gonna treat you right  
 And I'm just a virus  
 Inside you head  
 You lay awake in your hospital bed  
 And I ain't no doctor  
 But I know your sick  
 Your sick of the bullshit and state I'm in  
 That's why I want you to cry,  
 And I want you to cry for me,  
 I don't want you to lie to me,  
 And say that it will be alright,  
 And I want you to say goodbye,  
 But I want you to mean it,  
 And I want you to find a man,  
 Who's gonna treat you right  
 I'm pretty sure hat's right.
