

NeverShoutNever - Ever So Sweet

Tom: E

I just found a friend
 In one of your lies
 To treat me so nice
 I can't believe my bones
 When they say so many things
 They tell me I am fine
 Believe me I...
 try

 ooooo

Ever so sweet
 You make this seem
 The way things go
 It's not my fault
 And I miss...
 I miss you so good
 All of those nights we lost our way back home

Chorus

Ever so sweet
 You baked it in cakes for me
 What you left behind

It hurts my teeth
 Bringing the past with the postcards you sent for me
 Every line
 It brings me right back down

Can't you see the wall you build for me?
 Can't you see the wall you build for me?
 Can't you see the wall you build for me?
 'Cause we're not special
 We're not special
 We're not special
 Well I'm not special
 I'm not special

Chorus

Ever so sweet
 You baked it in cakes for me
 What you left behind
 It hurts my teeth
 Bringing the past with the postcards you sent for me
 Every line
 It brings me right back down
