

NeverShoutNever - Lousy Truth

Tom: A

(com acordes na forma de Capostraste na 2ª casa G)

Intro: / Verso:

Girl, I've been thinking a lot
 about who we could have been
 if i was back home
 just chilling with you and all my friends
 But dear I'm gone
 and that's the lousy truth
 For the past 3 years
 I swear I've been a better man
 than who Ive become
 i know i know i know I let you down

But I've been gone
 for too damn long

Refrão:

So if you go away
 right now that i can't guarantee
 that i won't break your heart
 But if you go stay then baby
 That i will hope and pray that you would run away
 Cause dear it breaks my heart
 to see you here

So shine outward, not inward
 you've been a selfish little girl
 for the past 3 years
 I've been through more than you can know
 and God I don't want you to know

But I have been through
 cause you just wouldn't understand
 you're just a girl with some issues
 as bad as it might sound

But you're the girl who's been driving me mad

So if you go away
 then know that i can't guarantee
 that i won't break your heart
 But if you go stay then baby
 That i will hope and pray that you would run away
 Cause dear breaks my heart
 to see you here

So go to school in Chicago
 find a new boy, a new life
 a whole new set of friends
 Cause all that I've ever do is break your heart

and dear it breaks my heart

to see you here

And dear it breaks my heart

to see you here

But just so you know...

I've been thinking a lot of
 who we could have been
 if i was back home
 just chilling with you and all my friends

But dear I'm gone
 and that's the lousy truth.
