

NeverShoutNever - Making Love

Tom: C

I know your love is true
 it's not just sex for you
 It's the first time that I felt this way in a long time
 and it's something I could get used to

(refrão)

It's love, it's love, it's true
 when I'm making love to you
 It's not just teenage lust
 or trying something new it's love,
 but we're too young to follow through

Her heart is made of gold
 these past two years
 I've grown so cold
 At the thought of trying out a different lover
 Now I know, I could never love another

(refrão)

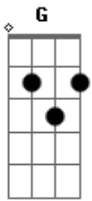

With all the plans we made
 travel all the world
 and drink our cares away
 what a happy day, if only i could say
 that she would be my lover, from now until forever

(refrão)
