Tom: G

```
                    G
If its not those cowboy boots in the summer
D
Oh my God I pray for another
Em7
Chance to drive down back highways
C                   D
'Til I stumble upon your beautiful face
G
Your presence isn't what kills me
D
It's that artistic gleam
Em7
That's taking over my scenery
C
Dream by dream

                    A74
You might think I'm incapable
           C
Of loving a soul like yours
                     A74
You might think I'm a fool
    C
For you

             G
Girl you got style
                         D
That's what I love about you
    Em7
The way that you sit back, Oh how you sit back
      C
And watch this grow
        G
You got dreams
               D
And therefore I believe in you
        Em7
All the small town people with their big remarks
               C
They aint got jack to say about my movie star
          G
Shes got style
ba da da da da da-da da
D            Em7        C

  Em7          C

                 G
If its not the fact that I'm a wee bit younger
        D
Or the truth that I'm so naive
   Em7
My heart keeps leaping back to you
        C          D
Like a dog tied to a tree
  G
I know it sounds crazy
                 D
Its ridiculous to me
        Em7                    C
But without you by my side girl

                     A74
You might think I'm incapable
           C
Of loving a soul like yours
                      A74
You might think I'm a fool
    C
For you
                     G
'Cause girl you got style
                              D
And that's what I love about you
    Em7
The way that you sit back, oh how you sit back
    C
And watch this grow
        G
You got dreams
                    D
And therefore I believe in you
        Em7
All the small town people with their big remarks
         C                          Em7         D
Aint got jack to say about my movie staaaaaaaaaaaaaaaaaaaar
Em7                    D                      Em7    D     Em7
D
What are the odds of finding someone just like you
oooooooooooohhhhhhhhhh
        Em7                                  D
Tell me why I never wanted to go back home
            Em7            D
I'm still falling for you
Em7  (strum once)
Today
