

NeverShoutNever - She's Got Style (Versão ORIGINAL)

Tom: G

If its not those cowboy boots in the summer
 Oh my God I pray for another
 Chance to drive down back highways
 'Til I stumble upon your beautiful face
 Your presence isn't what kills me
 It's that artistic gleam
 That's taking over my scenery
 Dream by dream

You might think I'm incapable
 Of loving a soul like yours
 You might think I'm a fool
 For you

Girl you got style
 That's what I love about you
 The way that you sit back, Oh how you sit back
 And watch this grow
 You got dreams
 And therefore I believe in you
 All the small town people with their big remarks
 They aint got jack to say about my movie star
 Shes got style
 ba da da da da da da-da da
 da da da whoooooooooo ohhhhhhhhhhhhh
 Shes got style ba da da da da da da-da da
 da da da

ooooooooh oh ohhhhhh

If its not the fact that I'm a wee bit younger
 Or the truth that I'm so naive
 My heart keeps leaping back to you
 Like a dog tied to a tree
 I know it sounds crazy
 Its ridiculous to me
 But without you by my side girl

You might think I'm incapable
 Of loving a soul like yours
 You might think I'm a fool
 For you
 'Cause girl you got style
 And that's what I love about you
 The way that you sit back, oh how you sit back
 And watch this grow
 You got dreams
 And therefore I believe in you
 All the small town people with their big remarks
 Aint got jack to say about my movie staaaaaaaaaaaaaaaaaaaaar
 What are the odds of finding someone just like you
 Tell me why I never wanted to go back home
 I'm still falling for you
 Today
