

NeverShoutNever - She's Got Style (Versão ORIGINAL)

```
Tom: G
If its not those cowboy boots in the summer
Oh my God I pray for another
Chance to drive down back highways
'Til I stumble upon your beautiful face
Your presence isn't what kills me
It's that artistic gleam
That's taking over my scenery
Dream by dream
You might think I'm incapable
Of loving a soul like yours
You might think I'm a fool
For you
Girl you got style
That's what I love about you
The way that you sit back, Oh how you sit back
And watch this grow
You got dreams
And therefore I believe in you
      Em7
All the small town people with their big remarks
They aint got jack to say about my movie star
Shes got style
ba da da da da-da da
           Em7
da da whooooooooo ohhhhhhhhhhhhh
Shes got style ba da da da da da-da da
```
