

NeverShoutNever - The Day That Music Died

Tom: C

(intro) Dm C F

The day that music died was an awful day
 the children started working instead of play
 our poets read from scripts to earn their pay
 i tell them exit stage left aint got shit to say

Cause music brings us life when we are dead
 an honest melody to break the trend
 and music brings us hope for future peace
 humanity will sing in harmony

I pray for that day

(harmonica part) Dm C F

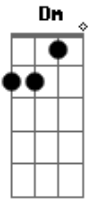

The day that music died was an awful day
 the critics and the skeptics had all the say
 this money hungry industry must back away
 set the music free or watch it fade away

Cause music brings us life when we are dead
 an honest melody to break the trend
 and music brings us hope for future peace
 humanity will sing in harmony
 I pray for that day
