

# Newholly - Bluebird

Tom: E

Bluebird fly in the raspy air

Bluebird sing through the night

Bluebird fly like you never cared

Singing a song for your life

You got a true love into your head

You gotta keep going, flying ahead

You got a big boom, you'll make it through

You gotta keep shining for you

Bluebird know if you give your life

Make sure you don't regret

Cause somehow you will find your ride

That I know, you can bet

You got a true love into your head

You gotta keep going, flying ahead

You got a big boom, you'll make it through

You gotta keep shining for you

Bluebird fly and live your life

You don't know how high's the sky

Bluebird cry, but take my life

Cause I'm lonely too

And I can't hide it now

[Solo]

You got a true love into your head

You gotta keep going, flying ahead

You got a big boom, you'll make it through

You gotta keep shining for you

Bluebird fly and live your life

You don't know how high's the sky

Bluebird cry, but take my life

Cause I'm lonely too

And I can't hide it now

True love into your head

You gotta keep going, flying ahead

You got a true love into your head

You gotta keep going, flying ahead

You got a true love into your head, you gotta keep going
