       C            D
I'm jealous, I'm overzealous
          G                           Em7
When I'm down, I get real down, when I'm high, I don't come
down
          C              D
I get angry, baby, believe me
          G                            Em7
I could love you just like that and I could leave you just
this fast

       C            D
But you don't judge me
             G            G              Em7
'Cause if you did, baby, I would judge you too
          C          D
No, you don't judge me
          G          G              Em7
If you did, baby, I would judge you too

I got issues, you got 'em too
          G          G              Em7
Give 'em all to me and I'll give mine to you
             C              D
Bask in the glory of all our problems
          G          G              Em7
'Cause we got the kind of love it takes to solve 'em
          C        D                            G  G  Em7  C
I got issues, one of them is how bad I need you

You do it on purpose
          G                            Em7
You get mad and you break things, feel bad, try to fix things
             C              D
But you're perfect, poorly wired circuit
          G          G              Em7
And got hands like an ocean, push you out, pull you back in

       C            D
But you don't judge me
          G          G              Em7
If you did, baby, I would judge you too
          C          D
