

Niall Horan - Science

tom:
 Capotraste na 3ª casa
 Intro: C Am G D

[Primeira Parte]

Can you feel what's beneath?
 Is it stone cold under your feet?
 Are you numb? Can you touch?
 Is the silence a little too much?

[Pré-Refrão]

And all you wanna do is break out

[Refrão]

So, when you feel there's nothin' left
 Oh, there's still a heart beatin' in your chest
 And when you're runnin' from the flood
 Oh, you've got nowhere left to run

It's just science
 Don't let it break you down

[Segunda Parte]

You can dance on your own
 It's okay 'cause you're not alone

You can hide your love
 You'll have your days in the Sun
 [Pré-Refrão]

But all you wanna do is break out
 [Refrão]

So, when you feel there's nothin' left
 Oh, there's still a heart beatin' in your chest
 And when you're runnin' from the flood
 Oh, you've got nowhere left to run

[Ponte]

Oh, when you feel you're sinkin'
 Overthinkin', time is crashin' down
 Oh, if you need somebody
 The world's too heavy to shine
 It's not too late now

[Final]

It's just science (don't let it break you)
 Don't let it break you down (don't let it break you down)
 Mm, it's just science (don't let it scare you)
 Don't let it scare you now

Acordes
