

Nick 13 - Carry My Body Down

Tom: G

How long can this journey go on?
 Will I find the place I'm meant to go?
 Will dreams fall down around us
 Just like the winter snow?
 Another year has come and gone
 Will my luck hold on for one year more?
 I think of how far I have come
 And what's been left behind
 When will they carry my body down?
 When will they carry my body down?
 Will they take it from the river
 After I've jumped right in and drowned?
 Will they find it on the battlefield
 On the spot I stood my ground?
 When will they carry my body down?

I walk alone, I walk apart
 Someday, I'll wander no more
 I search to find what I have lost
 And that which I've never known
 And when I find that I have gone
 Across that river I know
 I'll take only my memories
 And things that might have been
 When will they carry my body down?
 When will they carry my body down?
 Will they cut it from a hangman's noose
 After the sentence has come down?
 Will anyone be there
 To mourn a villain's passing to the ground?
 When will they carry my body down?
 When will they carry my body down?
 When will they carry my body down?
