

# Nickelback - Horizon

tom:

B (forma dos acordes no tom de C )

Afinação: Eb Ab Db Gb Bb Eb

Intro: C Am F

[Primeira Parte]

I wish that when you walked in, I could  
 Hide it  
 I wish that when we touched, there wasn't  
 Lightnin'  
 You say you wish our hearts had better  
 Timin'  
 But somethin' always keeps us from  
 Collidin'

[Refrão]

'Cause one of us is always holdin'  
 Somebody else  
 While one of us is hoping that nobody  
 Could tell  
 And the both of us are gettin' good at  
 Foolin' ourselves  
 Waitin' on the other one to figure it out  
 So how long, before, the stars will all  
 Align? (How long, before)  
 Or am I, just chasing, your love? (Am I Chasing)  
 Like it's just over the next horizon  
 Just over the next

[Segunda Parte]

I know you like the way you keep me  
 Captive  
 So what's it gonna take to make this  
 Happen? (To make this happen)  
 I lost my chance when you met him  
 I went through Hell and back again  
 But thank God there's no way to kick this  
 Habit

## Acordes

[Refrão]

'Cause one of us is always holdin'  
 Somebody else  
 While one of us is hoping that nobody  
 Could tell  
 And the both of us are gettin' good at  
 Foolin' ourselves  
 Waitin' on the other one to figure it out  
 So how long, before, the stars will all  
 Align? (How long, before)  
 Or am I, just chasing, your love?  
 (Am I Chasing)  
 Like it's just over the next horizon  
 Like it's just over the next horizon  
 Just over the next horizon

[Ponte]

Can we close the distance between  
 Where we are and where we could be?  
 Never really as far as it seems  
 When it seems just like

[Refrão]

One of us is always holdin' somebody else  
 While one of us is hoping that nobody  
 Could tell  
 And the both of us are gettin' good at  
 Foolin' ourselves  
 Waitin' on the other one to figure it out  
 So how long, before, the stars will all  
 Align? (How long, before)  
 Or am I, just chasing, your love?  
 ( Am I Chasing )  
 Like it's just over the next horizon  
 Like it's just over the next horizon  
 Just over the next horizon
