

Nickelback - Lullaby

```
Because you're not done you're far too young
Intro: Dbm
                              Gb
                                                                         Gb
                                                                And the best is yet to come
                                                                So just give it one more try to a lullaby
                                                                And turn this up on the radio
Verso 1:
                  Dbm
                                                                          Dbm
Well I know the feeling
                                                                If you can hear me now I'm reaching out
Of finding yourself stuck out on the ledge
                                                                To let you know that you're not alone
                                                                        Dbm
                   Dbm E
                                                                And you can't tell I'm scared as hell
And there ain't no healing
From cutting yourself with the jagged edge
                                                                Cause I can't get you on the telephone
                                                                         Е
Verso 2:
                                                                So just close your eyes (close your eyes)
               Dbm
                                                                Well honey here comes a lullaby
I'm telling you that its never that bad
Take it from someone whose been where you're at
                                                                Your very own lullaby
Laid out on the floor and your not sure
                                                                Ponte:
                                                                Well everybody's hit the bottom
You can take this anymore
               Dbm
                                                                And everybody's been forgotten
So just give it one more try to a lullaby {\color{red} \mathbf{B}}
                                                                When everybody's tired of being alone
And turn this up on the radio
                                                                Yeah everybody's been abandoned
If you can hear me now I'm reaching out
                                                                And left a little empty handed
To let you know that you're not alone
       Dbm
                      E
                                                                So if you're out there barely hanging on
And you can't tell I'm scared as hell
                                                                               Dbm
                                                                So just give it one more try to a lullaby \begin{tabular}{l} \end{tabular} B & \end{tabular}
Cause I can't get you on the telephone
                                                                And turn this up on the radio
So just close your eyes (close your eyes)
                          Dbm
                                                                         Dbm
Well honey here comes a lullaby
                                                                If you can hear me now I'm reaching out
Your very own lullaby
                                                                To let you know that you're not alone
                                                                        Dbm
                                                                                       E
Verso 3:
                                                                And you can't tell I'm scared as hell
               Dbm
Please let me take you
                                                                Cause I can't get you on the telephone
Out of the darkness and into the light
                                                                So just close your eyes (close your eyes)
             Dbm
                                                                                          Dbm
Cause I have faith in you
                                                                Well honey here comes a lullaby
                                                                Your very own lullaby
That you're gonna make it through another night
             Dbm
Stop thinking about the easy way out
There's no need to go and blow the candle out
                                                                Well honey here comes a lullaby
                                                                Your very own lullaby
```
