

# Nickelback - Satellite

Tom: B  
Intro: B Gb Abm E

1Parte:

I know it's late  
But somethings on my mind  
It couldn't wait  
There's never any time  
This life slips by  
Without a warning  
And I'm tired of ignoring  
All the space that's between you and I

Pré-Refrão:

Let's lock the door behind us  
They won't find us  
Make the whole world wait

While we

Refrão:

Dance around this bedroom  
Like we've only got tonight  
Not about to let you  
Go til the morning light  
You can be my whole world  
If I can be your satellite  
Let's dance around this bedroom

Like tonight's our only night

Dance around this room  
( I'll be your satellite )  
Dance around this room  
( I'll be your satellite )

2Parte:

Do you recall?  
How long it must have been  
Since any room  
Held only you and me  
Every song I sing's about it  
But we can't live without it  
Now I know  
Just what that really means
