Nickelback - Someday

```
                         tom:
             D

          [Primeira Parte]

Bm                    G              A
How the hell did we wind up like this
 D
Why weren't we able
Bm      G          A
To see the signs that we missed
         D
And try to turn the tables
Bm             G              A
I wish you would unclench your fists
      D
And unpack your suitcase
Bm            G            A
Lately there's been too much of this
      D
Dont think its too late

[Pré-Refrão]

E
Nothin's wrong, just as long as
A
You know that someday I will

[Refrão]

G       D
Someday, somehow
A                 E
Gonna make it allright but not right now
G           A         Bm
I know you're wondering when
                 A
(You're the only one who knows that)
G       D
Someday, somehow
A                 E
Gonna make it allright but not right now
G           A         Bm
I know you're wondering when

[Segunda Parte]

      Bm                 G           A
Well I hoped that since we're here anyway
         D
We could end up saying
Bm           G            A
Things we've always needed to say
         D
So we could end up stringing
Bm         G           A
Now the story's played out like this
            D
Just like a paperback novel
Bm           G         A
Lets rewrite an ending that fits
         D
Instead of a hollywood horror
