

# Nickelback - Worthy To Say

Tom: G

Verse

They usually come around about ten o'clock  
 You can hear them  
 You can tell "em" by the way they knock  
 Somebody said the other had a badge  
 Who told ya who told ya

Chorus

How about if I stay and you run away  
 Well come on back and try again some other day  
 Well somebody's gonna do it again  
 Gonna make me turn against all of my friends  
 So you better have something damn worthy to say

2nd verse

There blowin smoke everywhere around the block  
 You can smell it you can tell "em" by the way we talk  
 Somebody stoll 5 for gasoline  
 Who told ya who told ya

Chorus

How about if I stay and you run away  
 Well come on back and try again some other day  
 Well somebody's gonna do it again  
 Gonna make me turn against all of my friends  
 So you better have something damn worthy to say  
 then play this for the bridge  
 I'll never do it again no I won't  
 Let's settle it we don't  
 I can't afford my life cause i'm spendin it  
 Since you got just what you wanted

I can't afford my life cause i'm spendin it

Since you got just what you wanted  
 3rd Verse

We never do anything anymore  
 One eye on the television and one on the door  
 Somebody said revenge is served sweeter cold  
 Who told ya who told ya  
 The Sing this staight after that verse  
 There growin dope everywhere around the block  
 You can smell it you can tell "em" by the way they talk  
 Somebody stole five for gasoline  
 Who told ya who told ya

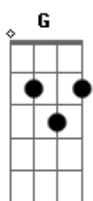

Chorus

How about if I stay and you run away  
 Well come on back and try again some other day  
 Well somebody's gonna do it again  
 Gonna make me turn against all of my friends  
 So you better have something damn worthy to say

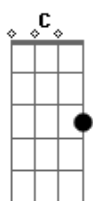

then play this for the bridge

I'll never do it again no I won't  
 Let's settle it we don't  
 I can't afford my life cause i'm spendin it  
 Since you got just what you wanted  
 then play this for the bridge  
 I'll never do it again no I won't  
 Let's settle it we don't  
 I can't afford my life cause i'm spendin it  
 Since you got just what you wanted
