 Got a bed, wit' your name on it
 Wit? your name on it
 Got a kiss, wit' your name on it
 Wit' your name on it

Thousand on the sheets
 Waiting for you and some thousand other sheets
 I got Carter III on repeat
 Back shots to the beat of (a milli?) on you
 Got me acting like you got a milli' on you
 You say I'm the GOAT, yeah the billy on you
 I could make all your dreams come true
 Wanna fall through, then you better come through

Don't make me wait until the morning
 Got a bed, wit' your name on it
 Wit? your name on it
 Got a kiss, wit' your name on it
 Wit' your name on it
 Love me good, let me down
 Don?t turn me down
 Got a bed, wit' your name on it
 Wit? your name on it

Strawberry lingerie
 Waiting for you, strawberries lingerie
 You told me you want a way
 Messed around, messed around, put it down on you
 I?mma do everything I said I'm gon' do
 Pretty little body in a bed and on you
 Might have to blubber like a feather on you
 What if alls, oo, yeah you better come true
 Don't make me wait until the morning

Got a bed, wit' your name on it
 Wit? your name on it
 Got a kiss, wit' your name on it
 Wit' your name on it
 Love me good, let me down
 Don?t turn me down (turn it down, baby)
 Got a bed, wit' your name on it
 Wit? your name on it

Got a bed, wit' your name on it
 Wit? your name on it
 Got a kiss, wit' your name on it
 Wit' your name on it
 Love me good, let me down
 Don?t turn me down
 Got a bed, wit' your name on it
 Wit? your name on it

 Yo (oh yeah)

He and my stunt hit five
 He get that ciggy live
 These niggas scared they doing 50 in a 55
 I'm trynna clap them like somebody told 'em gimme five
 I'm be a half an hour, but I told 'em gimme five
 I'm trynna dance on 'em, blow my advance on 'em
 I like 'em better when he got some sweatpants on 'em
 I like his hang time, he said his head right
 I said: go all the way down and then head right
 I watch him fuck it up, look at him luckin' up
 I said you need some thick skin, baby, suck it up
 He go insane on it, I put my fame on it
 Coulda put Zayn on it, but I put your name on it

Got a bed, wit' your name on it
 Wit? your name on it
 Got a kiss, wit' your name on it
 Wit' your name on it
 Love me good, let me down
 Don?t turn me down (turn it down, baby)
 Got a bed, wit' your name on it
 Wit? your name on it
