tom:

Intro: Em C G B<sup>Em</sup>

[Primeira Parte]

Em If only everybody could see you

Through my eyes

C We wouldn't have to worry

Bm And leave it all behind

G I know it isn't easy

B But I think we need a brand new start

I'll hold your heart

Em All of my friends and family

Keep saying you're no good

C Now that I'm finally happy

Bm Wish that they understood

G They may be disapproving

B But that ain't tearing us apart

I'll hold your heart

[Pré-Refrão]

Em Exhausted every option

It's time to run away

C Won't even pack a suitcase

I don't need anything

G As long as you're beside me

B I know that it'll be okay

We'll be okay

[Refrão]

Em Cuz if it's us

Against the world we'll fight it

C And win as long as we're united

G Take my hand and don't you let it go now

Em We'll find our way out

When we are faced with danger

C And eyes that stare at us in anger

G Take my hand and don't you let it go now

Em We'll find our way out

[Segunda Parte]

Em I'm tired of all the hiding

Unspoken secrecy

C Cuz nothing's more exciting

When you're right next to me

G I'm captured by the feeling

B Of when you're wrapped up in my arms

In my arms

[Pré-Refrão]

Em I don't have all the answers

Not sure what we should do

C But it doesn't really matter

I'm so in love with you

G As long as you're beside me

B I know that it'll be okay

We'll be okay

[Refrão]

Em Cuz if it's us

Against the world we'll fight it
