

## Nicole Scherzinger - Don't Hold Your Breath

```
C Em D
Intro: C Em
                                                               Don't hold your breath
   Don't hold your breath
    Em
                                                               Verso:
                                                               I was worried about you
Em D
You can't touch me now
                                                               But you never cared about me none
There's no feeling left
                                                               You took my money
 С
If you think I'm coming back Em D
                                                               And I know that you, you could kill someone
Don't hold your breath
                                                               I gave you everything
                                                               Em
But nothing was ever enough
Em
What you did to me
Boy I can't forget
                                                               You were always jealous over such crazy stuff
If you think I'm coming back
Don't hold your breath
                                                               You can't touch me now
                                                               There's no feeling left
Verso:
                                                               If you think I'm coming back Em D
I was under your spell for such a long time,
                                                               Don't hold your breath
Couldn't break the chains
You played with my heart,
                                                               What you did to me
Tore me apart with all your lies and games
                                                               Boy I can't forget
It took all the strength I had
                                                               If you think I'm coming back
But I crawled up on my feet again
                                                               Don't hold your breath
                                                                                                  Fm
                                                               Don't hold your breath
Now you're trying to lure me back
But no, those days are gone, my friend
                           Em
I loved you so much that I thought someday that you could
                                                               Move on,
                                                               Don't look back
But all you brought me was a heart full of pain
                                                               I jumped off a train
                                                                     Em
Refrão:
                                                               Running off the tracks
You can't touch me now
                                                               Your days gone,
There's no feeling left
                                                               Face the facts
If you think I'm coming back
                                                               A bad movie ends
Don't hold your breath
                                                               And the screen fades to black
What you did to me
                                                               What you did to me
Boy I can't forget
                                                                Em D
                                                               Boy I can't forget
If you think I'm coming back
                                                               If you think I'm coming back
Don't hold your breath
                                                               (You can't touch me now)
```
