VERSO 1 (Tuomas) (1:31)	Remember the first dance we shared? Recall the night you melted my ugliness away? The night you left with a kiss so kind Only a scent of beauty left behind

p.m	Ah dear friend I remember the night The moon and the dreams we shared Your trembling paw in my hand Dreaming of that northern land Touching me with a kiss of a beast
VERSO 2 (Tarja) (1:48)	
VERSO 1 (2:04)	I know my dreams are made of you Of you and only for you Your ocean pulls me under Your voice tears me asunder Love me before the last petal falls As a world without a glance Of the ocean's fair expanse Such the world would be If no love did flow in thee But as my heart is occupied Your love for me now has to die Forgive me I need more than you can offer me
VERSO 2 (2:21)	
Aos 2:46	
SOLO (3:11) É deste jeito que eu o toco.	Didn't you read the tale Where happily ever after was to kiss a frog? Don't you know this tale In which all I ever wanted I'll never have For who could ever learn to love a beast?
