

# Nightwish - Dead Boy's Poem

tom:  
 full of it <sup>A</sup> Born from silence, silence  
 A perfect concert my best friend  
 So much to live for, so much to die for  
 If only my heart had a home  
 Sing what you can't say  
 Forget what you can't play  
 Hasten to drown into beautiful eyes  
 Walk within my poetry, this dying music  
 - My loveletter to nobody

Never sigh for better world  
 It's already composed, played and told  
 Every thought the music I write  
 Everything a wish for the night

Wrote for the eclipse, wrote for the virgin  
 Died for the beauty the one in the garden  
 Created a kingdom, reached for the wisdom  
 Failed in becoming a god

Never sigh for better world

It's already composed, played and told  
 Every thought the music I write  
 Everything a wish for the night

"If you read this line, remember not the hand that wrote it  
 Remember only the verse, songmaker's cry, the one without  
 tears  
 For I've given this its strength and it has become my only  
 strength  
 Comforting home, mother's lap, chance for immortality  
 Where being wanted became a thrill I never knew  
 The sweet piano writing down my life"

[Solo]

"Teach me passion for I fear it's gone  
 Show me love, hold the lorn  
 So much more I wanted to give to the ones who love me  
 I'm sorry  
 Time will tell (this bitter farewell)  
 I live no more to shame nor me nor you  
 And you... I wish I didn't feel for you anymore..."

A lonely soul... An ocean soul  
 A lonely soul... An ocean soul

A lonely soul... An ocean soul  
 A lonely soul... An ocean soul
