not so sure about this..

more than one pic/tone (don't know how many, it's very hard to count them..
you hear what will sound pretty good..)

Chorus:

Ending:
p.m. . . . .
. . . . .

                     p.m . .

I won't tab this last solo..
It's to hard to hear what he plays all the time,
besides, you learn more on improvising your "own" solos.. :)
Good Luck!

Tablature explanation:
p.m = palm muted
