

Nina Nesbitt - Two Worlds Away

Tom: E
(com acordes na forma de Capotraste na 2ª casa)

See that shelter by the road
That's where I used to go
With my friends who weren't my friends
But I didn't know
Drinking till we went home
Until we got too cold
'Cause in the morning we'd be working
In a shop with clothes
Always wanting to be someone else
Her on the cover, her on the shelf
Really all I needed was myself

But we've all cried over someone
Got drunk and lied to our mum
When we were two worlds away
Of who we are today
So it's alright feeling like you've
Nothing left in you to prove
'Cause you're always two worlds away
Of who you'll be one day
Of who you'll be one day

See by that old brick wall
That's where I used to walk
On my way to meet that guy
Who I loved so
And it had only been a month
But I swore he was the one

D)

Till I found him in the backstreet
Kissing that friend I lost
Always wanting to be someone else
Her on the cover, her on the shelf
Really all I needed was myself
But we've all cried over someone
Got drunk and lied to our mum
When we were two worlds away
Of who we are today
So it's alright feeling like you've
Nothing left in you to prove
'Cause you're always two worlds away
Of who you'll be one day
Of who you'll be one day
But friend ends in end
And love is almost lose
But friend ends in end
But love is almost lose
But we've all cried over someone
Got drunk and lied to our mum
When we were two worlds away
People change and people grow
Love can heal a broken soul
But you are all you need and all you'll know
Indeed it's never a mistake
To be afraid of what you face
'Cause you were always two worlds away
Of who you'll be one day
Of who you'll be one day
