

Nine Black Alps - Shot Down

Tom: C

tabbed by: jon holmes from england, on 22nd july 2005

ok heres the deal, i don't really know this song enough to do a full tab but hey. this isnt the full song, theres alot missing but i've simply included parts that i know that there may be some confusion about.

please rate this keeping in mind that its not the full song. thanks

the weird chord that keeps popping up: (almost the same as "A major barre" but just move your little finger over to fret 8 on b string)

verse or something:

f5c5 A

D E

solo (probably wrong but heres a rough outline)

thats it i think, feel free to use the other tabs to fill in the gaps, or just do it yourself!

Acordes
