Tom: C

From: Burning.I (Burning Inside)

from the EP "Broken"  
 words and music by Trent Reznor  
 tabbed by Tom Mallon

Chorus Bass Riff (at "Don't open your eyes...")

Guitar Riff 1 (After chorus)  
 PM- - - - -

(Note: Guitar Riff one is two guitars put together. On the album, the palm-muted section is played by a second guitar further back in the mix.)

Guitar Riff 2 (Play this really fast in second verse)

Guitar Riff 3

Synth Line in Outro

if you can do this note as a hammer on  
 on the sixth string, do so, because it sounds  
 better.  
 It's kinda hard for me to stretch that  
 far, so I do it like this.

(Note: this synth line appears in the left channel near the end of the song, when Trent is screaming "slavery." It's kinda hard to hear unless you're paying attention. It's more obvious in the version that appears on "Fixed.")

Outro Guitar Riff

I realized I forgot to include this riff in the original tab I sent over.
