

## Nirvana - You Know Youre Right

```
I'm so warm and calm inside
                tom:
                Fm (forma dos acordes no tom de Em )
Capostraste na 1ª casa
                                                                I no longer have to hide
                                                                Let's talk about someone else
I will never bother you
                                                                Steaming soup against her mouth
I will never promise too
I will never follow you
                                                                Nothing really bothers her
I will never bother you
                                                                She just wants to love herself
Never speak a word again
                                                                I will move away from here
I will crawl away for good
                                                                You won't be afraid of fear
                                                                No thought was put into this
I will move away from here
                                                                Always knew it'd come to this
You won't be afraid of fear
No thought was put into this
                                                                Things have never been so swell
I always knew it would come to this
                                                                I have never failed to fail
                                                                [Refrão]
Things have never been so swell
                                                                Pain!
I have never failed to fail
                                                                Pain!
