

Njoki Karu - Stay

tom:

Abm

Walk with me, far above the horizon

Lay with me, we can put the stars to bed

Watching me, till the morning Sun arises

Wait with me, just wait with me till then

Walk with me, far above the horizon

Lay with me, we can put the stars to bed

Watching me, till the morning Sun arises

Wait with me, just wait with me till then

(Abm E Dbm Ebm)

Abm

Run with me, we can turn the wind golden

Dance with me, with the clouds beneath our feet

Love me still, love me leave me breathless

Stay with me, stay and let us weep

Run with me, we can turn the wind golden

Dance with me, with the clouds beneath our feet

Love me still, love me leave me breathless

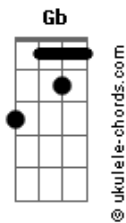

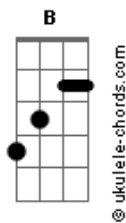

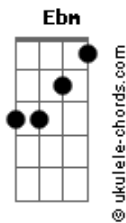

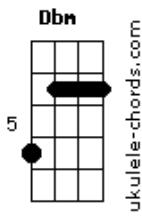

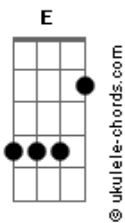

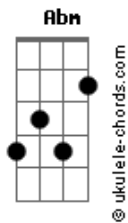

Stay with me

Abm

Cause we could be fire

B

Acordes

We could be rain

Just watch me in color

And I'll set you ablaze

We could be ocean

We could rage with the tide

Over the mountain

When lovers collide

Abm

Stay with me

Stay with me

Just stay with me

Stay with me

Abm

We could be fire

We could be rain

Just watch me in color

And I'll set you ablaze

We could be ocean

We can rage with the tide

Over the mountain

Where lovers collide

Stay with me
