tom:

Abm

Walk with me, far above the horizon Lay with me, we can put the stars to bed Watching me, till the morning Sun arises Wait with me, just wait with me till then Walk with me, far above the horizon Lay with me, we can put the stars to bed Watching me, till the morning Sun arises

Wait with me, just wait with me till then

( Abm E Dbm Ebm )

Abm Run with me, we can turn the wind golden Dance with me, with the clouds beneath our feet Love me still, love me leave me breathless Stay with me, stay and let us weep Run with me, we can turn the wind golden Dance with me, with the clouds beneath our feet Love me still, love me leave me breathless

Over the mountain

When lovers collide
