

Noah Kahan - Come Over

tom:

E

[Primeira Parte]

I'm in the business of losin' your interest
 And I turn a profit each time that we speak
 Don't you know there's a coffin buried under the garden
 It was there when we got here, will be there when we leave
 And my house was designed to kinda look like its cryin'
 The eyes are the windows, the garage is the mouth
 So when they mention th? sad kid
 In a sad house on Balch street
 You won't have to guess who th?y speakin' about

[Refrão]

Come over
 Come over

[Segunda Parte]

I'm in the process of clearin' out cobwebs
 I was takin' the wrong meds, feels good to be sad
 And my house is just barely big enough for my family
 But it feels like a fortress when the weather gets bad

Acordes

And my mouth was designed for my foot to fit in it
 Oh, the words, they went missin' when the stock market crashed
 And the Dow Jones keeps fallin', but I promise you, darlin'
 With the view in the morning, you won't ever go back

[Refrão]

Come over
 Come over
 Come over
 Come over

[Ponte]

I know that it ain't much, I know that it ain't cool
 Oh, you don't have to tell the other kids at school
 My dad'll strike it rich, we'll be the big house on the block
 Someday I'm gonna be somebody people want

[Final]

I'm in the business of losin' your interest
 And I turn a profit each time that we speak
 Don't you know there's a coffin buried under the garden
 It was there when we got here, will be there when we leave
