Intro: C Em C Em

I would be lost
Drifting along
Floating up high
Time after time
And there you'd be
Shining brightly
Your smiling face
To guide my way
(C Em C Em)

Bloody and bruised
Brought to my knees
When beaten down
When broken up
You would appear

Reach out to me

Heal every wound
And make me whole

Was it all a dream?
Will I never know
Foolish and blind
To everything
Had I realized
Had I thought it through
Would you be here
In my embrace?

[Refrão]

Shine bright once more
Guide me to you
Smile bright
Once more
This time
I will never let you go
