

Noca da Portela - Saudade de Belém

tom:

Intro: Gm E Am Bbm
Bm Cm G
D Gm Cm

De vez em quando soluça o meu peito

Relembrando os tempos idos na minha belém

Uma gaiola sai do ver-o-peso, vai

Até marajó para trazer meu bem

Bandeira branca vende bacaba

Se a bandeira é encarnada, lá tem açai

Gato escaldado a chuva não molha

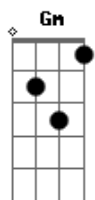

Só depois das quatro horas é que eu vou sair

Mulher bonita nasce a todo instante

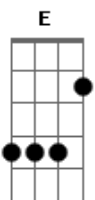

Um bom clima nos garante frutas naturais

De fato novo, todo engomado
Vou curtir o requeitado teatro da paz
Mamãe reza por nós com muita fé
No mês de outubro acompanha
O círio de nazaré
Depois de saborear um pirarucu
Papai que é remo doente
Me leva pra ver pra o meu paysandu
Outeiro e chapéu virado
Paisagens que lembro com grande emoção
Lembranças da terra
Querida, que trago guardadas no meu coração
