Noel Gallagher - Holy Mountain

```
   G
Dance dance, if you do that dance
G
I'm gonna let you join my one man band
G
Be my doll, be my baby doll
G
Come get to know me like the back of your hand
G
I like the name hanging out in shade
G
I like the way you do the push and the shove
G
You can blow my mind if you're that way inclined
D                                    C
All that I know is that you fell from above

G                         D
She fell, she fell, right under my spell
C                      G
Hold up pretty baby c'mon
G                               D
She danced, she danced, right into my hands
C                      G
Hold up pretty baby c'mon
G
Be my butterfly
D
You were almost shaking me
    C                             G
You rolled me at the top of them all
G
And if you feel the need
D
I'll send you God's speed
 C                                       G
To me you're hangin' at the break of the dawn

 C                             G
Get out of the doledrums baby, now
G
You lie, I'll set ya' on fire
C                              D
Get out of the doledrums baby, now

G
Do your thang on the beat of the bang
G
I'll put a melody inside of your head
G
No need to shout, what you bitchin' about?
G
I think those things are better left unsaid
G
She had a look you won't find in a book
G
And she smiles like 1969
G
You could blow my mind if you're that way inclined
D                                    C
And I know you're gonna make it mine

G                         D
She fell, she fell, right under my spell
C                      G
Hold up pretty baby c'mon
G                               D
She danced, she danced, right into my hands
C                      G
Hold up pretty baby c'mon
G
Be my butterfly
D
You were almost shaking me
    C                             G
You rolled me at the top of them all
G
And if you feel the need
D
I'll send you God's speed
 C                                       G
To me you're hangin' at the break of the dawn

 C                             G
Get out of the doledrums baby, now
