

Nofx - My Orphan Year Acoustic

Tom: C

(intro) C C Am F G

my father had dementia
 he lied in bed for months
 once in a while he'd call me
 and asked me to fly down
 i told him that i'd love to
 but i had things to do and
 and so he died without his son
 i heard about it drunk after a show

my mother battled cancer
 for over 7 years
 i nursed her and i held her
 when time was running out
 the night before she left me
 i drank scotch all night and thanked
 her for everything she'd done
 raising me alone wasn't much fun

so, dad, i can't forgive you
 but i'll never forget
 months i wouldn't see you
 and when i did you'd be
 out with your friends all night
 alone and only 9
 i watched The Outer Limits
 scared out of my mind

i wonder if you felt the same
 the days before you died
 i wonder if you even knew
 why i wouldn't come around
 i bet if you had been there
 there wouldn't be this song

2006
 good bye, parents
 for once sincere
 2006 - there was my orphan year
 (End) C C Am
