

# Nofx - We Ain't Shit

Tom: **A**

(com acordes na forma de )  
Intro:

tear that poster off the wall  
it takes up too much space  
we ain't no fucking rock band, man  
we're a professional  
disgrace is the word I would use to describe  
the noises we're making  
feedback, wrong key, a lack of dignity

(Riff)

don't think we don't know we're fuckin' losers  
washed up old men  
the years we'd play the same four chords  
over and over and once again  
posing as musicians  
justify what we get paid  
time to forfeit

we may be in the light  
but we ain't shit

yeah, yeah, yeah  
we know that we ain't shit

we may not get respect  
you think we don't know  
we may be riding on a one way ticket down  
we're going down  
but i got no regrets  
they'll come in time  
i can't remember having a better time  
we might just make it, but we'll make it to the show  
we'll be sedated, what did you expect, want to go

on the road to pity  
we just passed integrity  
pull the plug  
put us out of this aural misery  
so giving a new meaning to flogging a dead horse  
we all agree  
please drop us at the next glue factory

yeah, yeah, yeah  
we know that we ain't shit
