

NoMBe - Wait

Tom: C

I won't wait this time

No, not now, not again

Not much longer

Every way words might

Might or not, it's so high

Not to ponder

Refrão:

Let's make this last forever

?Cause the night's still young

It's true, I feel the pressure

Every time you're gone as long as we're together

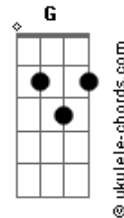

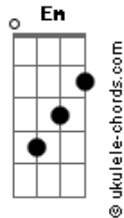

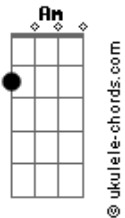

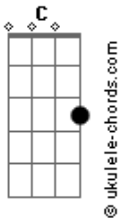

This moment last forever

(C Am Em G) (x2)

And what will she say

Would my heart be torn?

Acordes

Maybe there's some else to keep her warm

Maybe she's too shy to comment

Twenty one, and too hard to call it

Refrão:

Let's make this last forever

?Cause the night's still young

It's true, I feel the pressure

Every time you're gone as long as we're together

This moment last forever

(C Am Em G) (x2)

Let's make this last forever

?Cause the night's still young

It's true, I feel the pressure

Every time you're gone as long as we're together

This moment last forever

(X2)
