

Norah Jones - Black

Tom: G
Intro: 2x: Am E G D

Dbm G
We touched the wall's of the city streets and

Didn't explain

Sadly, showed us our ways

Of never asking why

Dbm C
Cast down it was heaven sent (and)

To the church no intent to repent

Em
On my knees

D
Just to cry

Am E
Until you travel to that

G D
Place you can't come back

Am E
When the last pain is gone

G D
And all that's left is black

Dbm G
Burning nights, he's coming to me and

Someway, he'll punish my deeds

D
And he'll find

G
All the crimes

Dbm C
But then they ask, when they gunna see them

Then they gunna ask to feel

Em
The ghost, the walls, the dreams
D
Well, I've got mine

Am E
At last, those coming came and

D
They never looked back

Am E
With blinding stars in their eyes

G D
But all they saw was black

Dbm
Fooled them

G
Hoping to seem like a sliver of evil
But the part agreed and
It's not a mask

D
So be honest with me
We can't afford to ignore

G
That I'm the disease

Dbm C
Practical, since we had to be in

When they were all looking back to me

D
And they tried

G
Oh, they tried

Am E
And when you follow through

D
And wind up on your back

Am E
Looking at up at those stars in the sky

G D
Those white clouds have turned it black
