

Norah Jones - In the morning

Tom: Ab

(com acordes na forma de G)
Capostraste na lª casa
Capo 1

verse:

"In the morning...":

I can't stop myself from callin' Callin' out your name I can't stop myself from fallin' Fallin' back again

In the morning Baby in the afternoon

Dark like the shady corners Inside a violin Hot like to burn my lips I know I can't win

Acordes

outro:

In the morning Baby in the afternoon

I tried to quit you but I'm too weak Wakin' up without you I can hardly speak at all

My girlfriend tried to help me To get you off my mind She tried a little tea and sympathy To get me to unwind

In the morning Baby in the afternoon

Funny how my favorite shirt Smells more like you than me Bitter traces left behind Stains that no one can see

In the morning Baby in the afternoon

You're gonna put me in an early grave I know I'm your slave whenever you call

I can't stop myself from callin' Callin' out your name I can't stop myself from fallin' Fallin' back again

Fallin' back again Fallin' back again Fallin' back again Fallin' back again...
