

Norah Jones - The Prettiest Thing

Tom: **C**

Intro: **C7M**

The prettiest thing

I ever did see

Was lightning from the top of a cloud

Moving through the dark a million miles an hour

With somewhere to be

So why does it seem

Like a picture

Hanging up on someone else's wall

Lately I just haven't been myself at all

It's heavy on my mind

Am Bb F F F
I'm dreamin' again
Am Bb F F F
Like I've always been
Am Bb F F F
And way down low
Am G
I still know

The prettiest thing
I ever did see
Was dusty as the handle on the door
Rusty as a nail stuck in the old pine floor
Looks like home to me

I'm dreamin' again
Like I've always been
And way down low
Am G C7M B7 C7M B7 ...
I'm thinkin' of the prettiest thing

Acordes
