tom:  
 Eb (forma dos acordes no tom de C)  
 Capotraste na 3ª casa  
 Intro: C Am

Well I've been holding  
 Holding out for something  
 Something that means nothing  
 But that's everything I own  
 Put me in the country  
 At the foothill of the mountains  
 A place to call my home  
 Leaving nothing on the road  
 We ain't afraid of nothing  
 We got nothing left to lose  
 And when the river comes to your door  
 I just wanna ride with you  
 I just wanna ride with you  
 Stranded in the city  
 With nothing going down  
 But I remember when we started  
 The search of higher ground  
 Wait until the night time

We'll be dancing in the moonlight  
 Singing songs about our homes  
 The ones we left so long ago  
 We ain't afraid of nothing  
 We got nothing left to lose  
 And when the river comes to your door  
 I just wanna ride with you  
 I just wanna ride with you  
 ( C Am )

How long how long  
 How long till higher ground  
 How long how long  
 How long till higher ground  
 How long how long  
 How long till higher ground  
 We ain't afraid of nothing  
 We got nothing left to lose  
 And when the river comes to your door  
 I just wanna ride with you  
 I just wanna ride with you
