

Nothing But Thieves - Lover, Please Stay

```
I'll always be
Intro: E|-----|
                                                          Chorus:
                                                                   Ab
                                                          Fhm
D|----6-6--6-6--6-7-6-7-6-7-6|
                                                          So take from me
                                       x2
A | ---4----9-9-9-9|
                                                                  Db
                                                          What you want
                                                                Cm Bbm
Verse:
                                                          What you need
Db
                                                          Ebm
                                                                Ab
                                                          Take from me
Lover
      Cm
I know you're weary
                                                          Whatever you want
       Ebm
                                                                  Cm Bbm
Eyes are tired
                                                          Whatever you need
                                                            Ebm
      Ab
From the night
                                                          But lover
                                                              Ab
                                                          Please stay
Db
Lover
                                                              Db
       Cm Bbm
                                                          With me
Come to the kitchen floor
                                                          Verse:
       Fbm
Tiles are cold
                                                          Ebm
   Ab
                                                          And I can see you
So am I
                                                          Ab
                                                          I can feel you
                                                                           Bbm
Chorus:
                                                          Dh
                                                          Slipping through my hands
Ebm
        Ab
So take from me
                                                          0hh
   Db
                                                          Ebm
What you want
                                                          I can taste you
      Cm Bbm
                                                          Ab
What you need
                                                          I can taste you
Ebm
Take from me
                                                          Slipping through my hands
                                                          Chorus:
Whatever you want
                                                          Fbm
      Cm Bbm
                                                          So take from me
Whatever you need
  Ebm
                                                          What you want
But lover
                                                                 Cm Bbm
                                                          What you need
    Ab
Please stay
                                                          Ebm
   Db
                                                          Take from me
With me
                                                          Whatever you want
Verse:
                                                                  Cm Bbm
                                                          Whatever you need
Lover
                                                             Ebm
                                                          But lover
      Cm Bbm
I feel your sorrow
                                                              Ab
                                                          Please stay
      Ebm
Pouring out
                                                              Db Cm Bbm
                                                          With me
    Ab
Of your skin
               Cm Bbm
                                                          0hh
   Db
And I don't want to be alone
                                                           Ebm
      Ebm
                                                          My lover
If I'm tonight
                                                              Ab
                                                          Please stay
      Ab
                                                          Db
                                                          With me
