Intro: Am C F Am C F

Am   C   F
   We used to dream, we used to name the stars
Am   C   F
   Tracing futures, lying in the dark
Am   C   F
They said we'd never last
Am   C   F
The brightest flame burns fast
G   F   G   F
We say words, we don't talk anymore

    C
Tonight we're growing closer
 Em
Closer to the end
        Am   G
Were we fools for each other?
    F
Or fools for falling in?
           C
Are we looking at forever?
                 Em
'Cause I can't see it in your eyes
       Am   G   F
Have you had enough or do we try again?
    Am   G   F
The glass was half full and we stopped pouring in
                 Am
Just say when

(C   F)

Am   C   F
  I see that sunset in your eyes again
Am   C   F
  I got that sinking, sinking, same feeling
        Am   C   F
They said we'd never last
         Am   C   F
They were right but I can't help looking back

     C
Tonight we're growing closer
 Em

           F   D
Oh, we keep circling and it never ends
F   D
We keep breaking down but never bend
            F
Oh, we've been half alive
                 Fm
Yeah, we've been half alive for way too long

Tonight we're growing closer

The glass was half full and we stopped pouring in
          Am   C F
So just say when
          Am   C F
So just say when
