```
(forma dos acordes no tom de G )
Capostraste na 3º casa
Intro: Em C G D
You need attention, someone that looks after you all the time
But I've got to mention, you look so lonely, every time
You say you have someone, but it looks like you're alone,
You say you love him so, but I don't believe he does
And It's hard to know the way you are,
                 D
The things you said from the start
Right now I just don't believe in you
The crap you said, they were not true
I don't.... wanna play, your games
 Em C
I don't.... wanna stay, just friends
      С
It kills me inside when I see that you just
                      D
Don't fell the same, you want to keep playing your games
(Em C G D)
You're no angel, and I think you don't like them at all
```

```
And I've got to mention, even if you look like one, you are
You know it is so true, to you I would never lie
I thought that I loved you so, I know I can't deny it

The things you said from the start
Right now I just don't believe in you
