A

Say you're doing better lately

D

But driving by my house daily

Gbm

Like we used to do

A

Did you find the missing piece

D

When you let go of me

Gbm

And made her a part of our lives

Gbm

'Cause it was more than one night

A Bm
And I don't wanna need somebody else

Gbm

If I need him like I need you

Bm

Took me long enough to leave you

A

So you keep tellin' me you love me

D

I put you first, put you above me

Gbm

So take everything you want from me then leave

D

Take everything you want from me then leave

A

I know you only love to hurt me

D

Then come right saying that you're sorry

Gbm

So take everything you want from me then leave

D

You're only making room for somebody

A

Somebody else

A
So I'm doing better lately

Gbm

You're not changing my mind

A Bm
And I don't wanna need somebody else

Gbm

If I need him like I need you

Took me long enough to leave you

A

So you keep tellin' me you love me

I put you first, put you above me
